EDUCATION

Institute of Management Study, MAKAUT — 2022-2025
Bachelor of Computer Application, **8.2**

Holy Child School, ISC — 2020
Stream: Science, **72%**

EXPERIENCE

Kinexa Solutions — Sept 2024 - Present
Full Stack Developer — *Remote*

- Revamped React front-end pages, fixed bugs, and added new features to prod which improved the user experience significantly.
- Designed and developed multiple campaign websites, leveraging modern web development tools and best practices to enhance user experience and achieve campaign goals.
- Configured and managed the backend for an exam portal, ensuring seamless functionality, data integrity, and user accessibility.

JWOC — Feb 2023 - Mar 2023
Open Source — *Remote*

- Rank 7th out of 160+ participants.
- Contributed to various projects and fixed over 40+ issues.

PROJECTS

DeployCell
NodeJS — React — Socket — Redis — AWS — Docker — [Link](#)

- Full stack web application designed to make the process of hosting and serving web applications easy. Created multi-servers using Express and socket.io to communicate with Object Store(s3), Redis and API's. Used React with Tailwind to develop the front-end and integrate with backend.

Chamber
React — RPC — Tailwind — [Link](#)

- Developed a web-based crypto wallet using React. Integrated rpc to interact with blockchain nodes. Used Shadcn library for UI.
